GOOD NEWS FOR HOMEMAKERS

GREEN BEANS

Select beans with a fresh, bright appearance with good color for the variety. Get young, tender beans with pods in a firm, crisp condition.

Avoid wilted or flabby bean pods, serious blemishes, and decay. Thick, tough, fibrous pods indicate overmaturity.

A bushel of snap beans weighs about 30 pounds and will yield 18 to 20 quarts of canned or frozen beans.

Wash beans and drain. Cut or break off ends; cut or break into 1 or 2-inch pieces. Slice lengthwise for french-style beans.

CANNING BEANS

Raw Pack Pack raw beans tightly to ½ inch to top. Add ½ teaspoon salt to pint jars; 1 teaspoon to quarts. Cover with boiling water, leaving ½ -inch headspace. Remove air bubbles by running spatula or knife between food and jar. Adjust jar lids.

Process in pressure canner at 10 pounds pressure (240°F.)

Pint jars ..... 20 minutes
Quart jars ..... 25 minutes

Hot Pack Cover cut beans with boiling water and cook for 5 minutes. Pack hot beans loosely to ½ inch of top of jar. Add ½ teaspoon salt to pint jars; 1 teaspoon to quarts. Cover with boiling-hot liquid, leaving ½-inch headspace. Adjust jar lids.

Process in pressure canner at 10 pounds pressure (240°F.).

Pint jars ..... 20 minutes
Quart jars ..... 25 minutes

The small amount of salt used adds flavor but may be omitted.

FREEZING BEANS

Heat beans in boiling water for 3 minutes in a blancher or in a wire basket in a large kettle. Work with small quantities of beans for best results. Use at least 1 gallon of boiling water for each pound of prepared beans. Put beans in blanching basket or wire basket and lower into the boiling water. Cover and start timing immediately.

After 3 minutes, plunge basket containing beans into a large quantity of cold water (60 degrees F. or below) to stop the cooking. Allow 5 minutes for cooling.

Drain thouroughly. Pack beans, leaving ½ inch headspace.

Seal. Freeze; store at 0°F. or below.

Should you have a food preservation question or problem, call the Appomattox County Extension Office (352-8244). It is always a pleasure to help you.

RECIPE OF THE WEEK

Tuna or Salmon Macaroni Salad

8 ozs. macaroni
1 small onion, finely chopped

Soil testing is an important tool in the management of any cropping system. Hay supplies appear to be short; many beef cow owners will want to stockpile fescue. A soil sample needs to be taken now, because these fields will need to be limed and fertilized in 6 weeks.

During the past eight months we have tended to bunch soil samples in such a manner that it's been impossible to provide the kind of service you want. Here are the number of samples returned to Appomattox growers by months: October 25, November 3, December 3, January 36, February 107, March 117, April 167, May 113, and 39 have been returned this month.

In one month this spring the VPI & SU Soils Lab received 43,000 samples.

Now is the time to begin planning for next year's lime and fertilizer needs.

* * *

Thirty years ago we produced 16.3 million pounds of Dark Fire Cured Tobacco in Virginia and it averaged $29.46. Last year we produced 4.7 million pounds that averaged $92.97.

Over these past 30 years we've sold two crops in the $20's, 17 in the $30's, 4 in the 40's, 3 in the $50's, 1 in the $60's, 1 in the $70's, 1 in the $80's and last year for $92.

The 75% loss in production is largely because of 30 years of depressed prices. With a reasonable season the 1976 crop will probably average over $1.

Here's the way the 1975 crop graded: 104 percent graded A, 19 percent B, 44 percent C, 24.6 percent X, 8.6 percent N and 6.4 percent no grade.

The Virginia crop had less lugs than either Tennessee or Kentucky dark fired.

* * *

We weighed and graded the J. C. Caldwell calf crop today. We need more beef producers using BCIA as a management tool. If we are going to be serious about farming we need to use indicators of where we are and where we are going.

* * *

Purdue University reports on a nine year study where corn was grown continuously and treatments were uniform, only the planting dates differed. Corn planted April 26 averaged 142 bushels; May 9-141 bushels; May 21 - 132 bushels and June 3 - 116 bushels. The yield reduction due to planting date was as much as 22%.

* * *

Virginia studies show that on soybeans soils testing low to medium in phosphorus and medium in potash over a 3 year period returned a profit of $54 when an 0-30-120 was applied.

A similar soil test on corn in Virginia for three years showed that 150-30-120 produced an average of 114 bushels or $53.96 profit.

Timeliness and using the tools that are available to you can help turn a profit.

ACHS Senior Elected State FHA Officer

Teresa Cyrus

Miss Teresa Cyrus, a rising senior at Appomattox County High School, was elected State Vice-President for the Virginia Association, Future Homemakers of America at the 31st Annual Leadership Conference at Hotel Roanoke in Roanoke held June 15-17. Teresa will be serving as 1st Vice President for 377 chapters throughout the State of Virginia.

Teresa has been active in Home Economics and the Future Homemakers of America for four years. Each year she has held a local office in the organization. In 1972-73 she was 2nd Vice President, 1973-74 President; 1974-75 Reporter; 1975-76, 2nd Vice President; and for 1976-77 she will be President of her local chapter. In 1974-75 she was also Campbell-Appomattox Federation President.

Girl of the Year in 1972 and in 1973, she has attended FFA-FHA Camp two years and was elected Girl Camper of the Week in 1975. Teresa has attended four State Conventions and has earned her Junior Chapter and State Homemakers Degrees.

Teresa has also been active in many other organizations. She has been Tri-H-Y Vice President and Reporter; attended Region 3 Chorus; Drama Club Secretary; participated in the Junior Class Play; on the Yearbook Staff; member of the National Honor Society; Photography Club; and Spanish Club. She has also played Varsity Volleyball for three years.

Next year, in addition to serving as State Vice President and Chapter President, she will be Editor of the Yearbook, Senior Class Chaplain, Radio Staff member, SCA, ICC, DECA, and National Honor Society.

Society member. Teresa has also won honors in oratorical contests. She is a 1976 Division-wide Winner in the Bicentennial Patrick Henry Oratorical Contest.

She is a member of Liberty Baptist Church where she serves as President of the Youth Council, Acteens and Choir. She is also Secretary for the Associational Acteens. She went on the 1974 concert tour of Poland with the Liberty Youth Singers, has been on a missions trip to Youngstown, Ohio and will be going on a missions trip to New York City in August.

Teresa is the daughter of Mr. and Mrs. Harry Cyrus of Appomattox.

Red Cross. The Good Neighbor.

Once the preliminary survey is completed, the information will be filed and, it is hoped, made available to persons doing historical or family research in the county. In addition, followup surveys and photographs to obtain more detailed descriptions may be made where feasible. Restoration and preservation projects may be based on the information uncovered in the survey.

The Committee will solicit the active participation of all county citizens in the survey, but all survey, photography, and other detailed work will be done only with the consent of owners of the property involved.

Campbell County Bicentennial Celebration July 4 at Rustburg

Rustburg is the site for the Campbell County Bicentennial Commission's July 4th Celebration. The celebration, planned to start after church on Sunday, July 4, will last all day to end with fireworks after dark. The highlight of the celebration will be a speech by our Senator, the Honorable Harry Byrd.

Senator Byrd will be introduced by Judge W. H. Overbey, Sr. At the time of the introduction at 2 o'clock, the national bell ringing will take place. Plans are underway to provide a generous chorus of bells to lead on the Senator. There will be church bells, the court house bell, and re-enforcements of recorded bells for the event.

A simultaneous, nationwise ringing of bells on July 4 will herald the country's entrance into its third century. Communities, churches, schools, fire departments, universities and individuals will toll bells and carillons in conjunction with the ringing of the Liberty Bell in Philadelphia at 2 p.m. The time selected is exactly 200 years from the precise moment that the Liberty Bell proclaimed the independence of the new nation. The bell-ringing will go on for two minutes in commemoration of the nation's first two centuries. The nationwise effort is encouraged and supported by a Senate Concurrent Resolution of the U.S. Congress. The Liberty Bell will be rung (amplified electronically because of the crack) in a symbolic national ceremony conducted by the Sons of the American Revolution at Independence National Park at precisely 2 p.m.

B&W Receives $7 Million In ERDA Contract Awards

LYNCHBURG VA.- The Babcock & Wilcox Company has received contract awards totaling $7,693,000 from the Energy Research & Development Administration, it was announced today.
